

Warranty & Core Charges.

Post-purchase workflows handled natively. Capture warranty registrations through embedded forms and checkout opt-in, and manage refundable core charges with deferred capture — all tracked, searchable, and exportable inside Shopify.

WHY THIS MATTERS

Post-purchase, handled.

- ✓ Warranty registration via form & checkout opt-in
- ✓ Deferred core charges captured only when needed
- ✓ Centralized, searchable, exportable records

01

Warranty registration

Collect and verify registrations from storefront forms and the order flow.

02

Deferred core charges

Authorize a core deposit and capture it only if the core isn't returned in time.

03

Centralized & auditable

Every registration and consent tracked, searchable, and exportable.

Warranty & Core Tools

Embedded Reg Form

A configurable storefront form for warranty registration.

Checkout Enrollment

Opt into warranty registration during the purchase flow.

Email Verification

Registrations verified by email, with a thank-you confirmation.

Eligibility Controls

Admins choose which products and variants are warranty-eligible.

Deferred Core Charge

Authorize a core deposit on a vaulted card; capture only if unreturned.

Core Reconciliation

Track returns and release or capture the deposit accordingly.

Search & Export

Sortable, searchable registration records with CSV export.

Native to Shopify

Registrations and consent live in Shopify, visible on the order.

How it Rolls Out

PHASE 01

Discovery

We learn your catalog, your fitment, and where buyers get stuck.

PHASE 02

Architecture

We plan your registration and core-charge rules.

PHASE 03

Migration

Your products and fitment get cleaned up and organized in Shopify.

PHASE 04

Build

We build the registration forms and core-charge handling.

PHASE 05

Launch & tune

We test, launch, then keep tuning sales and order flow.

Post-purchase, fully owned.

Warranty registration and deferred core charges — tracked, verified, and reconciled inside Shopify.

Registrations and cores, handled in Shopify.

Warranty registrations flow in from embedded forms and checkout, verified and centralized. Refundable core charges are deferred on a vaulted card and captured only if the core isn't returned.

- 1 Register via form or checkout
- 2 Verify, centralize, export
- 3 Defer & reconcile core charges

Warranty Registrations

Q Search...

CUSTOMER	PRODUCT	STATUS
Marcus Bell	Red-Head Steering Box	Verified
Tanya Brooks	AFE DPF-Back Exhaust	Pending
Derek Olsen	BDS Coilover Kit	Verified
Priya Nair	S&B Cold Air Intake	Verified
Jordan Lee	Banks Turbo Kit	Pending

Core Charge

\$275.00

refundable core deposit

☒ Defer core charge

Authorized now, captured later

☐ Pay core charge now

Adds +\$275.00 today

Charged only if the old core isn't returned within 30 days.

☒ Deferred · vaulted card

1

Capture registrations

Embedded forms and checkout opt-in collect warranty registrations, verified by email.

2

One central record

Every registration is searchable, statused, and exportable — visible right on the order.

3

Deferred core charges

Authorize the core deposit up front and capture it only if the old core isn't returned in time.
